Other Protective Clothing and Equipment:

None required under normal conditions of use. When handling large quantities (e.g., > 1 gallon), wear protective eyeglasses, gloves, boot, and apron per OSHA regulations (29 CFR 1910.133).

Hygienic Work Practices:

Wash hand thoroughly after using this product and before eating, drinking, or smoking.

Section 7. Precautions for Safe Handling and Use / Leak Procedures**Steps to be Taken if Material is Spilled or Released:**

Before cleaning any spill or leak, individuals in spill cleanup must wear appropriate Personal Protective Equipment.

For small spills (e.g., < 1 gallon) wear appropriate personal equipment (e.g., goggles, gloves). Maximize ventilation (open doors and windows) and secure sources of ignition. Remove spilled material and place to appropriate closed container(s) for disposal. Dispose of properly in accordance with local, state, and federal regulations. Wash all affected areas and outside of container with plenty of warm water and soap. Remove any contaminated clothing and wash thoroughly before reuse.

For spills \geq 1 gallon, deny entry to all unprotected individuals. Contain spill with inert material (e.g., sand or earth). Transfer product to containers for recovery or proper disposal. Remove contaminated clothing promptly and wash affected areas with soap and water. Keep spills and cleaning runoffs out of municipal sewers and open bodies of water.

Waste Disposal Methods:

Dispose of in accordance with federal, state, or local regulations.

Precautions to be taken in Handling and Storing:

Keep away from excessive heat, open flame, and other possible source of ignition. Do not store in damaged or unmarked containers or storage devices.

For warehouse storage, pallets and cases should be placed to avoid damage or rupture from material handling equipment. With use, spray aerosol carefully and cap after each use.

Other Precautions and/or Special Hazards:

None
